The diagram illustrates a two-stage process. Stage I shows a person at a computer terminal with a 'START' button and a 'STOP' button. Stage II shows a person at a computer terminal with a 'START' button and a 'STOP' button. The diagram is labeled with 'I' and 'II'.

Figure 1. The effect of the number of trials on the number of correct responses. The number of correct responses was significantly higher than the number of incorrect responses for all groups. The number of correct responses was significantly higher than the number of incorrect responses for all groups. The number of correct responses was significantly higher than the number of incorrect responses for all groups.
